# 1024 RUEDLINGER NURSERY

C. N. Ruedlinger, Prop.

MEMBER OF

Nurserymen - Landscape Gardeners - Foresters

Office: 2929 COLFAX AVE. S., MINNEAPOLIS

Phone: KE 2216

It's Not a Home  
Until It's Planted

Nursery: St. Louis Park, Minnesota

## Minnesota Grown Nursery Stock for Minnesota Homes.

Since our planting season is of such short duration in the spring, it is advisable, in order to get prompt attention, to send in orders as Early as possible.

Prices as listed are f. o. b. Minneapolis. No charge for packing.

Twin City orders for \$2.00 or more delivered free.

### REPLACEMENTS—

We agree to replace any nursery stock purchased from us direct at prices listed, that fails to grow before Oct. 1st, providing instructions for planting and care as given in our booklet are carried out. The guarantee is void unless dead stock is reported before October 15th and payment in full has been made when amount was due.

### PLANTING—

We prefer to have our customers do their own planting. If we are to plant the stock an additional 40% will be charged. Any black dirt and labor for excavating the poor soil will be additional. No orders planted which amount to less than \$5.00.

### BEAUTIFYING—

We gladly advise as to beautifying your home grounds and give you the benefit of our many years of experience. We give complete Landscape service.

### SHIPPING—

All goods are at purchaser's risk after they are delivered to the forwarding company from whom we hold a receipt for the shipment in good condition. Claims for damage while in transit must be made to the transportation company, which is directly responsible.

# Ruedlinger Nursery

—::—

Stands For

“QUALITY” and “SERVICE”

—::—

In dealing with us you are patronizing a local concern of reputation and responsibility, carried on under my personal supervision.

We are fully equipped to carry on any kind of Landscape work, such as moving large trees, planting and furnishing of nursery stock, grading, tennis courts, rock gardens, building of roads, pruning of shrubs, tree work, etc.

We have in our employ only experienced foremen that have been with us for years.

With the assistance of A. J. Smith, who has a life experience in Landscape gardening and all other branches of Horticulture, we are in a position to give proper advice and help you solve your Landscape problems.

In thanking you for your confidence in the past, we again offer to you our efficient and satisfactory service which we believe responsible for the yearly increase in the business of the RUEDLINGER NURSERY.

	Coquelicot, scarlet, crimson eye.		
	Miss Jenkins, white.		
	Mrs. Chas. Dow, lavender.		

**HARDY FLOWERING PERENNIALS—(Continued)**

- Miss Lingaard, white.  
 Mme. Bezanson, crimson.  
 Pantheon, clear deep carmine pink.  
 Sunset, deep pink.  
 Sieboldi, orange scarlet, crimson center.  
 Eclaireur, bright carmine.  
 H. O. Wijers, pure white, crims'n eye.  
 Independence, white.  
 Sir E. Landseer, bright crimson.  
 Lothair, bright crimson.  
 R. P. Struthers, bright rosy red, crimson eye.  
 Rijnstroom, lively rose pink.  
 Rosenberg, reddish violet, blood red eye.  
 Rich. Wallace, white, maroon center.  
 Rheinlander, salmon pink.  
 Champs Elysses, purplish crimson.  
 Elizabeth Campbell, salmon pink.  
 Van Hochberg, rich crimson.  
 Subulata, moss pink, pink and white, 25c each. \$2.50 per dozen.  
**Physalis Franchetti**, Chinese Lantern plant.  
**Platycodon Gdfl.**, Balloon Flower.  
**Pyrethrum**, Roseum, Persian or painted Daisy.  
 Uliginosum, Giant Daisy.
- Polemonium**, Jacob's Ladder.  
**Ranunculus**, Buttercup, 35c.  
**Rudbeckia**, Laciniata, Golden Glow.  
 Fulgida, Cone Flower.  
**Purplea**, Purple Cone Flower.  
**Salvia Azorea**, Meadow Sage, 35c.  
**Scabiosa Caucasia**, Blue Bonnet, 35c.  
**Sedum**, Spectabilis, Stone Crop.  
 Specta, Brilliant, Stone Crop, Amaranth, Red, 35c.  
**Spirea**, Filipendula, White Meadow Sweet, 35c.  
 Aruncus, Goats Beard.  
 Palmata, Pink Meadow Sweet, 40c.  
 Ulmaria, Meadow Sweet.  
**Statice Latifolia**, Sea Lavender, 35c.  
**Stockesia Cyanea**, Cornflower Aster, 35c.  
**Tradescantia Virginiana**, Spiderwort.  
**Thalictrum**, Adiantifolium, Meadow Rue, 30c.  
 Aquilegifolium, Meadow Rue, 30c.  
**Trollius Europaeus**, Globe Flower, 50c.  
**Valeriana Officinalis**, Garden Heliotrope.  
**Veronica Spicata**, Speedwell.  
**Viola Cornuta**, Tufted Violet.  
**Vinca Minor**, Periwinkle.  
**Yucca Glauca**, Adams Needle, 50c.

**ROCK GARDENS**

There is probably no branch of Landscape Gardening so little known and yet so full of interest as a Rock Garden or Alpine Garden. Small gardens can be made as attractive as larger ones and will be far more interesting on account of the slight elevations of the surrounding grounds made necessary by the proper arrangement of Boulder Stones and Rocks, with the many miniature plants and dwarf evergreens peeping out of crevices.

To get the best results in building Rock Gardens, the rocks must be so laid as to give a natural appearance instead of a heap of stones with soil thrown over them.

We specialize in the building of Rock Gardens, Lily Pools, Water Falls and everything else in connection with the beautifying of grounds.

We also suggest a visit to our nurseries at St. Louis Park, where we have constructed Rock Gardens and Pool.

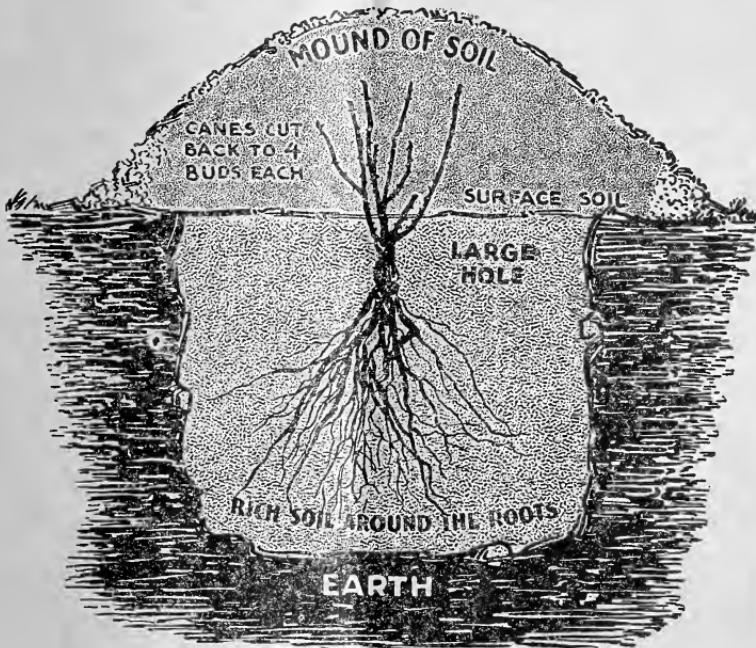

If interested in this line of work we will gladly take up the matter with you at your convenience.

## PREPARATION AND CARE OF ROSEBEDS AND ROSES

Excavate 2½ feet, take away all poor soil, refill with 8 inches of light clay, 8 inches of old manure and sod and the rest with good heavy soil. Fill with water 2 or 3 times to settle.

If the bed can be prepared in the fall it will be so much better as the ground will settle during the winter.

Plant the roses about 2-3 inches below where they were grafted or budded. Roses need plenty water especially during the flowering period. Water thoroughly once or twice a week according to the weather and the soil condition.

This diagram shows how your specimen-plant rose bushes should be planted. Note how the canes are cut back and mounded over with soil. Note how far below the surface of the soil the crown of the plant is set. Plant your roses just as this diagram shows, and they will be sure to grow and blossom freely.

The real secret of success when planting roses is **First** to cut back severely; **Second**, to water the plants thoroughly; and **Third**, to cover the newly set plants with a mound of soil. (**This latter does not apply to pot grown roses.**)

Prune all of the canes so that not more than four (4) buds remain on a cane. This is very important.

Shorten the roots a little, making a smooth cut at the end of each root.

Dig the hole at least six inches wider than the widest spread of the roots, prepare the same as for rose bed.

Put in the plant and fill the hole two-thirds with top soil, then fill up hole with water.

After water has seeped away finish filling the hole.

Next, draw up a mound of soil over the bush fully 6-10 inches high. This will bury the bush completely and protect the canes from dying out before the growth begins.

Allow the mound of soil to remain until the new growth starts, then hoe the mound down gradually. This is best done on a cloudy day. If the new growth is long and white the plants should be shaded for a few days with heavy burlap and the burlap should be sprinkled occasionally.

All plant life must be fed. Most people have known that for years. It remained for Swift & Company to formulate a plant food, specially and scientifically prepared to furnish proper food for growing plants.

# VIGORO

*Specially prepared plant food*

#### ***Lawns—***

VIGORO gives the lawn a smooth, velvety appearance. Unexcelled for starting new lawns reviving old ones which are bare, yellow or thin in spots and the feeding of established lawns.

#### ***Flowers—***

VIGORO promotes vigorous and abundant buds — colorful and fragrant flowers. Grows hardy and disease resisting plants.

#### ***Gardens—***

Grows those fresh vegetables that you can get only from your own garden. VIGORO increases the yield, hastens maturity and gives that quality, succulence and flavor which can only be produced in rapidly grown, properly fed vegetables.

#### ***Shrubby—***

VIGORO is the ideal plant food for shrubbery and trees. It grows hardy, luxuriant and full-foliated shrubs—trees vigorous and full of leaves.

## RUEDLINGER NURSERY

PACKED IN 25, 50 AND 100 LB. BAGS

GRASS SEED, BENT GRASS STOLONS, BARNYARD AND COMMERCIAL FERTILIZERS, BLACK DIRT, CLAY, TULIP BULBS.
